

# ANMOL MISHRA

Frontend Developer

(+91) 920-514-0599 | Gurugram | Gmail | LinkedIn | GitHub | Portfolio

---

## PROFESSIONAL OBJECTIVE

Frontend Developer with **3+ years of experience** in creating responsive web applications. Skilled in **React.js, Redux Toolkit**, and modern UI frameworks like **Tailwind CSS** and **Bootstrap**. Adept at **API integration, performance optimization**, and crafting scalable, user-friendly solutions. Committed to clean, maintainable code and improving user engagement through high-quality front-end solutions.

---

## WORK EXPERIENCE

**Gastos Private Limited** | *Associate Software Engineer* | Oct '22 – Present

Hybrid

- **Led client-side** development, boosting app usage by 30% through real-time transaction data integration.
- **Optimized UI** performance with **Redux**, reducing transaction delays during high traffic.
- **Integrated APIs** for real-time updates, enhancing **user experience** by 30%.
- Designed secure **JWT-based authentication**, improving system security by 40%.
- Built an **HRM** system with dashboards, leave management, and issue tracking.
- Streamlined development using **component-based architecture**, cutting code duplication by 60%

**Alpharule Pvt. Ltd.** | *React.js Front-End Developer* | May '22 – Oct '22 |

Gurugram

- Developed **SPAs** using **React.js** and a **component-based architecture**, ensuring scalability and reducing deployment time by **15%** and **Collaborated** with international clients.
- Built responsive web apps with modern **JavaScript, SASS, and CSS frameworks**, optimized for cross-device performance.
- Used **Postman, Jira, and Bitbucket** for **API testing, project management**, and version control, cutting development time by **15%**.

**Virecube Solutions** | *React.js Intern* | Oct '21 – April '22

Noida

- **Assisted** in building modular components, and reducing component load time by **20%**.
  - Contributed to seamless **API** integration and **debugging** processes, and reducing component load time by **20%**.
  - Implemented responsive designs for optimal performance, achieving **95%** cross-browser compatibility.
  - Actively participated in stand-ups and code reviews to improve technical skills.
- 

## SKILLS

Languages: **HTML5, CSS, JavaScript (ES6+), TypeScript**

Frameworks/Libraries: **React.js, Tailwind CSS, Bootstrap, Redux, Next.js, Node.js, Express, MongoDB,**

Version Control: **Git, Bitbucket**

Project Management: **Jira**

Testing & Debugging: **Postman, Jest**

---

## CERTIFICATIONS

MERN Stack (Cuvette) – 2023

- Proficient in **MongoDB** for efficient and scalable database management.
  - Experienced in **Express.js** for building scalable **server-side applications** and **React.js** for creating dynamic, interactive UIs that enhance the user experience.
- 

## EDUCATION

AKTU University | *MBA (Ongoing)* | Expected Completion: August, 2025

University of Delhi | *Bachelor of Science (Physical Science)* | 2016–2019 | New Delhi
