Music

Anmol Mishra
React.js Developer

Front End Web Developer with over a year of professional experience specializing in React.js and more than 1200 hours of deliberate practice. Skilled in writing clean, optimized code and contributing to both solo and team projects. Continuously learning and growing in the industry, seeking to leverage my skills and experience to contribute to the success of an innovative organization.

💼 Experience

React.js Developer
Antro PAI Technologies Private Limited, Hyderabad, Telangana
February 2024 – Present

- Developed and maintained the Antro Attendance Tracker using JavaScript and React, significantly improving team productivity by streamlining attendance tracking processes.
- Created and enhanced the Antro Admin Page dashboard, incorporating functionalities such as issue reporting, routing, and API integration to facilitate smoother user interactions and administrative tasks.
- Implemented user issue reporting features, enabling team members to log and track issues, thereby improving communication and resolution times within the team.
- Implemented comprehensive API to connect the front-end React application with back-end services, ensuring seamless data flow and real-time updates; utilized React Router for efficient and user-friendly navigation.

React.js Developer Intern
Gastos Private Limited, Chandigarh, Punjab
October 2022 – May 2023

- Collaborated with cross-functional teams of UX/UI designers and developers to implement user interfaces, enhancing website functionality and visual appeal.
- Designed and developed responsive web page interfaces and graphics using HTML, CSS, and JavaScript, ensuring intuitive and user-friendly interactions.
